Summary

Passionate and motivated aspiring UI/UX designer with hands-on experience in Figma and a strong interest in product, web, and app design. Continuously learning and experimenting to create intuitive and visually appealing user experiences. Eager to contribute creativity, design thinking, and problem-solving skills to innovative projects.

Education

International Islamic University, Chittagong, B.Sc in Computer Science & Engineering May 2026 (Expected)

Chittagong Govt. Women College, HSC (GPA:5) 2020

Bakolia Govt. High School, SSC (GPA:5) 2018

Team Projects

Road Safety Analysis

- Developed a website to provide information about road conditions and safety in Bangladesh. Enabled easy access for users to learn about road safety and related guidelines.
- Technologies used: HTML, CSS, JavaScript, Bootstrap

Hangman Game

- Developed an interactive web-based Hangman game using HTML, CSS, JavaScript, and SQL database for storing scores.
- Implemented game logic, user interface, and persistent score tracking.

Case Study

Home Rental App (Tenant & Landlord)

- Conducted a UI/UX case study to design a user-friendly home rental platform for tenants and landlords.
- Created wireframes, prototypes, and mockups using Figma, focusing on intuitive navigation and responsive design.
- Addressed user needs such as property listing, booking, and communication between tenants and landlords.
- Technologies used: Figma

Publications

- A Lightweight Feature Fusion and Attention-Based Network with Geometric Calibration for Robust Eye State Detection - Accepted for Presentation
- Comparative Analysis of Machine Learning and Deep Learning Models for Stress Level Prediction - Accepted for Presentation

Certificate

Ostad UI/UX Career Track Program (Credential ID C31762)
